

「組裝合成」年度需求預測

MiC Annual Demand Forecast

發展局與建造業議會共同分析來自政府部門、公私營機構及其他相關來源的數據，並於 2025 年 6 月發布「組裝合成」建築（MiC）年度需求預測。該預測以現有 MiC 項目的數據為基礎，並將每年更新，以準確反映市場趨勢與業界發展情況。

The Development Bureau and the Construction Industry Council have jointly analysed data from government departments, public and private organisations, as well as other relevant sources. The annual forecast of demand for Modular Integrated Construction (MiC), released in June 2025, is based on data from identified MiC project and will be updated annually to accurately reflect market trends and industry developments.

- 將於2025至2030年間完工的「組裝合成」樓面總面積約250萬平方米
- The total MiC floor area due to be completed between 2025 and 2030 is about 2.5 million m².
